

Myth 2

Consciousness under the Sea

Partner Up and Speak Up

Use the spaces below to document your ideas.

What are your **Thoughts** on the sentience, behaviours and consciousness of fishes?

Do you have any further **Questions** you would like to investigate?

Did you have any **Epiphanies** during the lesson?

Now partner up with another student to share your ideas verbally – articulating our ideas clearly can sometimes be difficult, but it is a very useful skill to learn. You might like to have a practice run first!

Use a stopwatch to time your peer – aim to speak for 2 minutes before swapping to let your partner speak.
